**49** Chapter 3: Cross-Segment Comparisons

---

**58** Appendix

---

## Background & Objectives

The 19 CCs are facing increased competition from online programs, 4-year Extensions, and job-focused trainings. Enrollment is dropping across the board, and they are looking to identify messaging, branding, and consumers to target to address the changing education landscape.

**Overall Goal:** Leverage consumer insights from research to inform strategy and innovation to lead to solutions that encourage more students to pursue “career education” at one of the 19 local community colleges

## Research Objectives

Identify and create a new segmentation through differentiation, and new attributes/motivations

Create a new and improved typing tool for segment classification

Uncover which motivations and accompanying needs and preferences are central to seeking post-secondary education

## Business Objectives

Create an attitudinal-based segmentation that identifies targetable segments in order to increase enrollment to LACC schools

Chapter 1

# OPPORTUNITY ANALYSIS

# In the context of LA 19's current offerings, Proud Pupils and Support-Seeking Graspers are clear targets.

|                          |  Economic Potential | + |  Capturability | + |  Strategic Alignment | = | <b>Overall Opportunity Index</b> |
|--------------------------|--|---|---|---|---|---|----------------------------------|
| Status Seekers           | 131  | + | 57  | + | 107   | = | <b>93</b>                        |
| Pragmatic Skillers       | 81   | + | 122   | + | 64  | = | <b>91</b>                        |
| Doubtful Drifters        | 81   | + | 89  | + | 65  | = | <b>79</b>                        |
| Support-Seeking Graspers | 79   | + | 104   | + | 138   | = | <b>110</b>                       |
| Proud Pupils             | 128  | + | 129   | + | 126   | = | <b>128</b>                       |

## Economic Potential

If you win, how big is the pie? How much are they worth?

## Capturability

How easy is it going to be to win?

## Strategic Alignment

How well are each segment's needs aligned with your brand's future direction and positioning?

# Various metrics fed into each input for our opportunity analysis on current offerings.

| ECONOMIC POTENTIAL   | IMPORTANCE   | STRATEGIC ALIGNMENT   | IMPORTANCE  | CAPTURABILITY   | IMPORTANCE  |
|--|--|---|---|---|---|
| Agreement with "I am looking for a longer term program" (P5)   | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>            | Agreement with "Most of my education comes from school" (P2)                                | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> | Stereotyping Exercise: Strong agreement with Community colleges are "worth the investment" (P6)                     | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
| Agreement with "Finances are not something I worry about" (P8) | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> | Agreement with "Education is the best way to explore my passions" (P2)                      | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>            | Current enrollment in LACC (Selected any codes 1-19 at S17)   | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>            |
|  |  | Agreement with "Higher education is mostly about gaining skills to make a better life" (P2) | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       | Has previously attended a community college (Selected code 1 at S22 or D2)  | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       |
|  |  | Agreement with "Getting a good job depends mostly on having the right education" (P2)       | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> | Considered enrolling at a community college after high school (P3)  | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       |
|  |  | Intent to switch careers (Selected any codes 2-3 at S32)                                    | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       | Agreement with "Community college is a great fit for me and my needs" (P12)   | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |  | Agreement with "I'm concerned that my job or future job could be automated" (P8)            | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       | Certificate from a community college is essential in achieving professional goals or dreams (Selected code 1 at P7) | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |  |   |   | Positive feelings towards community college (Selected codes 1-6 at P1 for community college)                        | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>            |
|  |  |   |   | Agreement with "I would be happy to get all of my education from a community college" (P12)                         | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |  |   |   | At least researched post-secondary options (Selected any codes 3-4 at S28)  | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       |

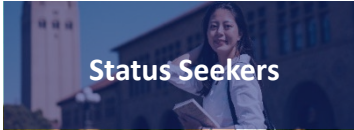

# Proud Pupils and Support-Seeking Graspers show the most opportunity for LA 19.

These segments have the greatest alignment with LA 19's current offerings, and are capturable as well due to their favorable views of community college.

● HIGH ● MED ● LOW

|   | ECONOMIC POTENTIAL + | STRATEGIC ALIGNMENT + | CAPTURABILITY = | OVERALL OPPORTUNITY INDEX |

# Status Seekers and Proud Pupils have the highest economic potential for the traditional community college offering.

Economic potential counts for less of the final opportunity score due to the general targets of Community Colleges.

## ECONOMIC POTENTIAL

● Status Seekers

● Pragmatic Skillers

● Doubtful Drifters

● Support-Seeking Graspers

● Proud Pupils

Agreement with "I am looking for a longer term program" (P5)

Agreement with "Finances are not something I worry about" (P8)

# Because of their views on education, Support-Seeking Graspers and Proud Pupils are most strategically aligned for growth.

## STRATEGIC ALIGNMENT

● Status Seekers

● Pragmatic Skillers

● Doubtful Drifters

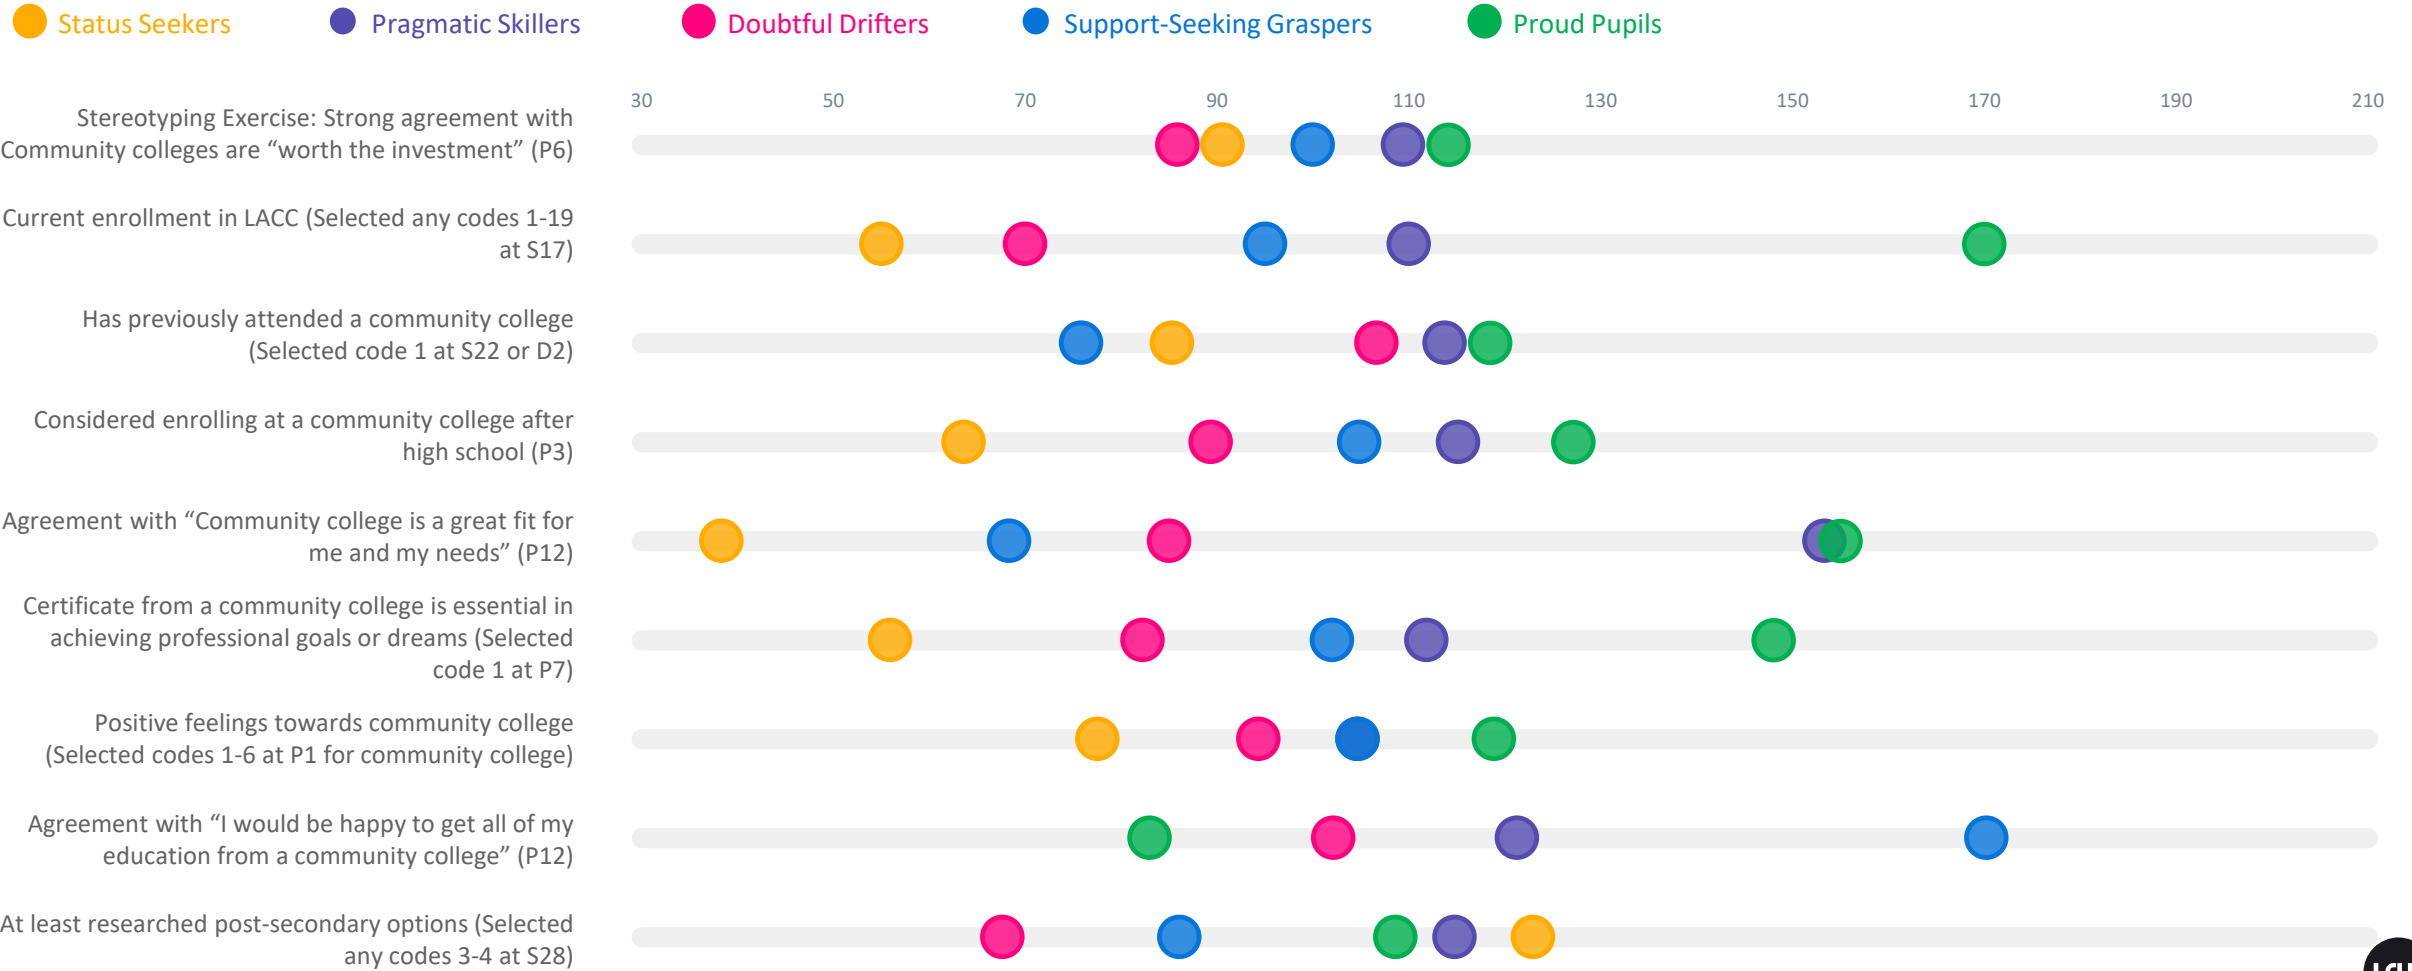

● Support-Seeking Graspers

● Proud Pupils

# Proud Pupils and Pragmatic Skillers are also capturable, as they're most open to getting their education from community college.

## CAPTURABILITY

# By adding an online offering, LA 19 can also grow by attracting Pragmatic Skillers.

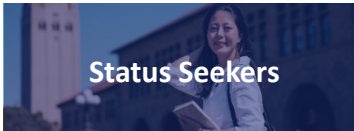

This group is characterized by its preference for online, self-driven courses, as well as openness towards community college.

| ECONOMIC POTENTIAL   | IMPORTANCE  | STRATEGIC ALIGNMENT   | IMPORTANCE  | CAPTURABILITY   | IMPORTANCE  |
|--|---|---|---|---|---|
| Agreement with "I am looking for something to get quick experience" (P5) | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> | Agreement with "Flexibility in my schedule is most important" (P5)  | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> | Agreement with "I would prefer to take classes online" (P8)   | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
| Agreement with "Finances are not something I worry about" (P8)           | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>            | Agreement with "It doesn't matter who I'm learning with as long as who I'm learning from is an expert" (P2) | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> | Stereotyping Exercise: Strong agreement with Community colleges are "worth the investment" (P6)                     | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |   | Agreement with "I prefer to start and stop a class at my own pace" (P5)                                     | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> | Current enrollment in LACC (Selected any codes 1-19 at S17)   | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>            |
|  |   |   |   | Has previously attended a community college (Selected code 1 at S22 or D2)  | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       |
|  |   |   |   | Considered enrolling at a community college after high school (P3)  | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       |
|  |   |   |   | Agreement with "Community college is a great fit for me and my needs" (P12)   | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |   |   |   | Certificate from a community college is essential in achieving professional goals or dreams (Selected code 1 at P7) | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |   |   |   | Positive feelings towards community college (Selected codes 1-6 at P1 for community college)                        | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/>            |
|  |   |   |   | Agreement with "I would be happy to get all of my education from a community college" (P12)                         | <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> |
|  |   |   |   | At least researched post-secondary options (Selected any codes 3-4 at S28)  | <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>                       |

Bolded statements are unique to this version of the opportunity analysis.

# Beyond attracting Pragmatic Skillers, an online option is also likely to be used by Support-Seeking Graspers as well as Proud Pupils.

|   |  |  |  |   |               |   |                           |
|---|---|---|---|---|---------------|---|---------------------------|

|  Proud Pupils            | LOW   | +   | MED   | + | HIGH          | = | MED                       |

● HIGH ● MED ● LOW

# Pragmatic Skillers have high interest in something that will give them quick experience.

Economic potential counts for less of the final opportunity score due to the general targets of Community Colleges.

## ECONOMIC POTENTIAL

● Status Seekers

● Pragmatic Skillers

● Doubtful Drifters

● Support-Seeking Graspers

● Proud Pupils

Agreement with “I am looking for something to get quick experience” (P5)

Agreement with “Finances are not something I worry about” (P8)

# Because of their views on education, Support-Seeking Graspers and Proud Pupils are most strategically aligned for growth.

## STRATEGIC ALIGNMENT

● Status Seekers

● Pragmatic Skillers

● Doubtful Drifters

● Support-Seeking Graspers

● Proud Pupils

# Because of their preference for online classes, Pragmatic Skillers are a prime target for a more-developed online offering.

## CAPTURABILITY

Chapter 2

# MEET THE SEGMENTS

## We have identified five segments within the market for higher education.

*Status Seekers* are focused on one thing: a degree. They have a clear vision of what they want to do with their degree and how to get there, and are willing to pursue it no matter the cost.

Status Seekers are **not** a target for LA 19, though some will go through the CC system as determined transfer students.

*Pragmatic Skillers* are more about the results than the journey: if they can skip the formal education pathway, they will. They see that most of their education comes from outside of school, and have a focus on learning, not just grades.

Pragmatic Skillers are a **future target** for LA 19.

*Doubtful Drifters* are unclear on where they want to go in life, and are skeptical if higher education is even the way to get them there. They feel that they are too busy in their life with other things to make education a priority.

This group is **not** a target for LA 19.

*Support-Seeking Graspers* are looking for flexible schedules to fit their busy life, consistent support from their counselors, and one-on-one attention from professors to help ensure their success.

Support-Seeking Graspers are a **current target** for LA 19.

*Proud Pupils* are community college cheerleaders: They're proud to attend, and know that they fit in with everyone who goes there.

Proud Pupils are a **current target** for LA 19

# LRW Segmentation Process

Our segmentation process is extremely rigorous from a quantitative and statistical perspective. On the other hand, it is also highly intuitive and flexible in its interpretation and application.

## Proud Pupils

Proud Pupils are community college cheerleaders: They're proud to attend, and know that they fit in with everyone who goes there. They know that professors at community colleges are just as good as at the larger schools and that they have something to offer to people regardless of where they are in their career.

Proud Pupils **are a current target** for LA 19, as it makes up a sizable portion of those currently attending community colleges. They are advocates for the community college experience and are using it as a stepping stone to transfer to a four-year program.

This group has high aspirations and is willing to work to reach them. Attract them with longer-term programs that include supportive professors with real-world experience. Proud Pupils also show a preference for online courses, but aren't currently taking them, implying the need to refresh and update online offerings to provide the courses that they need.

# Proud Pupils see the value in higher education and the doors it can open. These are mostly transfer students or students seeking an Associate's degree.

## Key Attitudes About Education

|  |                   |
|--|-------------------|
| Most of my education comes from school   | <b>78%</b> (+23%) |
| Getting a good job mostly depends on having the right education                  | <b>76%</b> (+21%) |
| I have a clear vision of what I would do with a degree                           | <b>86%</b> (+20%) |
| I like to collaborate when learning  | <b>71%</b> (+19%) |
| I take my education very seriously   | <b>93%</b> (+15%) |
| Higher education is mostly about gaining skills to make a better life            | <b>90%</b> (+14%) |
| I would only be happy with my education if I completed a degree                  | <b>85%</b> (+13%) |
| The most important things to learn are taught outside of school                  | <b>53%</b> (-11%) |
| I care about my education because I think it is very important                   | <b>86%</b> (+10%) |
| As long as the information is there, the way it's presented to me doesn't matter | <b>71%</b> (+10%) |

## Top Considerations

## Top Reasons For Taking Classes

## Decision sources

## Top Barriers

Percentages + or - are comparisons versus total sample.

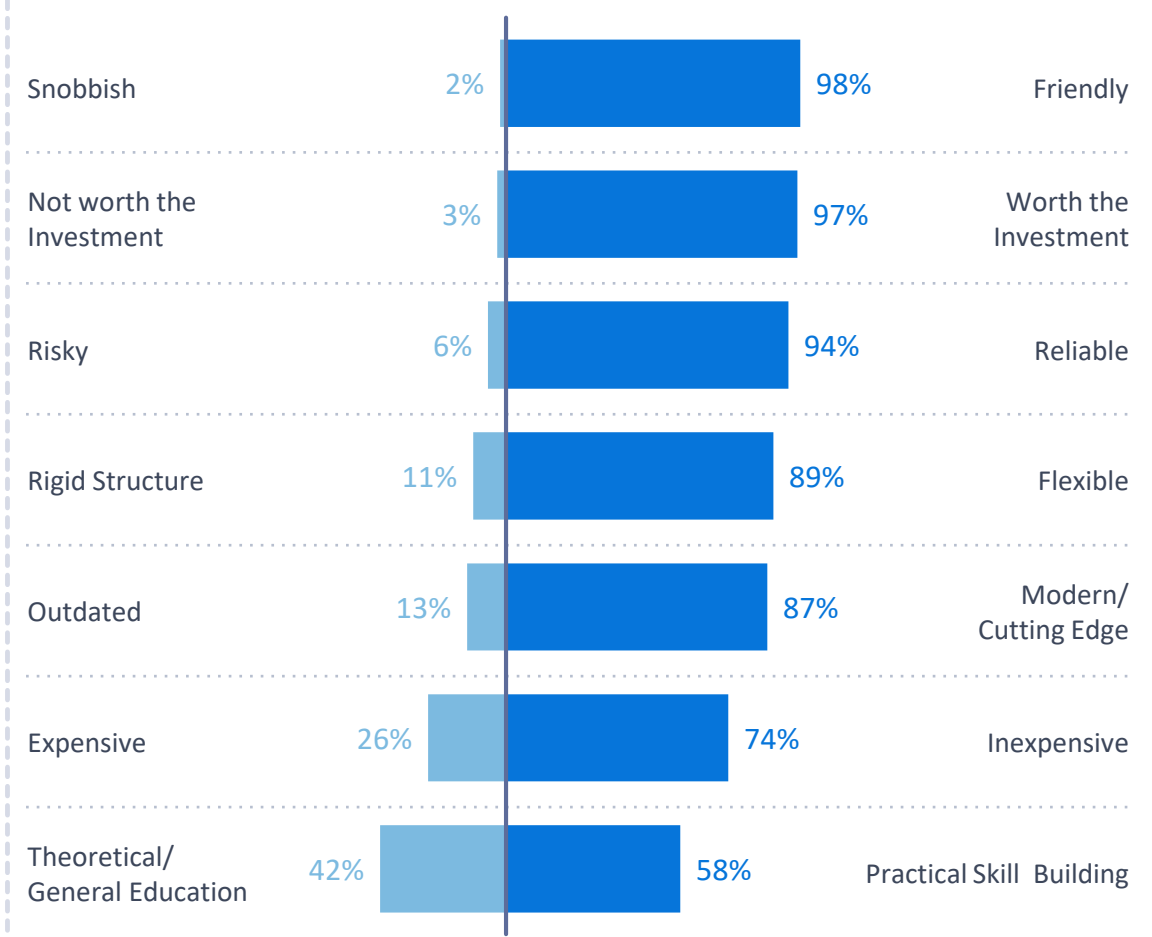

# Proud Pupils are already fans of CCs and are proud to go there. They see it as a place that can help people at various stages in their career, and know they fit right in.

## Community College Perceptions

|  |     |        |
|--|-----|--------|
| I would be proud to tell others I go to community college                            | 95% | (+34%) |
| Community college is a great fit for me and my needs                                 | 93% | (+33%) |
| I think I would fit right in with the kinds of students that go to community college | 94% | (+30%) |
| Community colleges can help people at various stages in their careers                | 95% | (+18%) |
| Community college professors are just as good as they are at bigger schools          | 91% | (+18%) |
| Community college caters to a wide variety of interests                              | 89% | (+16%) |
| I had/have a pretty good idea of what community college is all about                 | 91% | (+9%)  |
| I would use community college as stepping stone to a better school                   | 61% | (+7%)  |

## CC Word Associations

Awareness of community college was a requirement to enter the study. Percentages + or - are comparisons versus total sample.

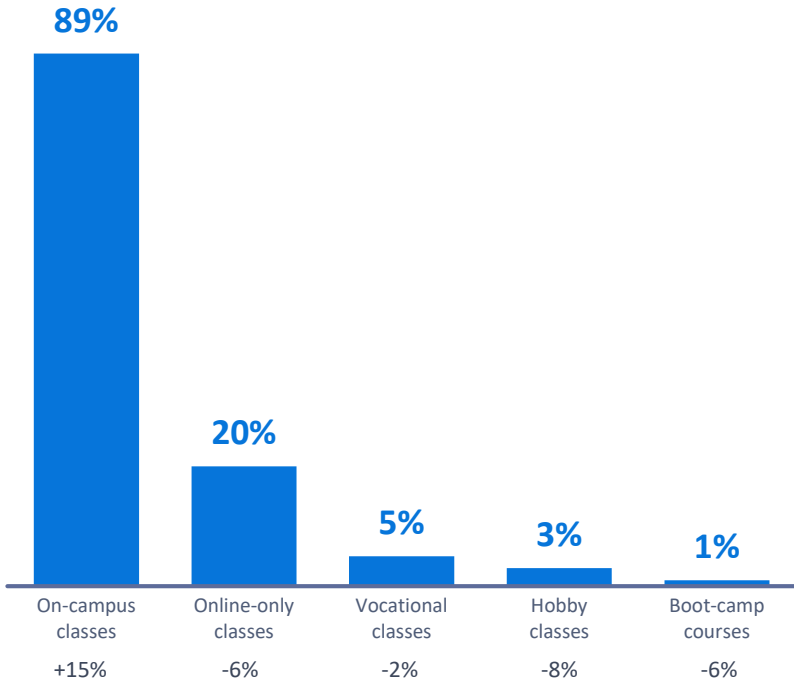

# As fans of more traditional education, Proud Pupils opt for long-term programs that are focused on a degree. However, there is some preference for online courses.

## School Specifics

## Support-Seeking Graspers

Support-Seeking Graspers are looking for flexible schedules to fit their busy life, consistent support from their counselors, and one-on-one attention from professors to help ensure their success.

Support-Seeking Graspers **are a current target** for LA 19, as these students are currently attending or are generally open to attending community colleges. However, this group has some level of risk built in due to the support network required to ensure their success.

To help retain and provide for these students, LA 19 should identify these students and ensure that they get the support they need. Targeted counseling that supports both their school and personal lives will go a long way toward retention. Additionally, LA 19 should provide ways to help them identify their passions and how to pursue them in order to further promote resonance with the community college brand.

These students are more aware and worried about the future of automation. Help quell their fears by offering “future-proof” programs (ideally certificates or shorter-term) with job placement prospects. As this group is lower-income and more cost-averse, implement novel payment plans (such as a percentage of their paycheck after starting their career, or other deferred-cost programs) to help support them in their goals.

# Support-Seeking Graspers place a high value on having the right education to get a job, but recognize that much of their education comes from outside of school. They see the value in a real-world education over a theoretical one.

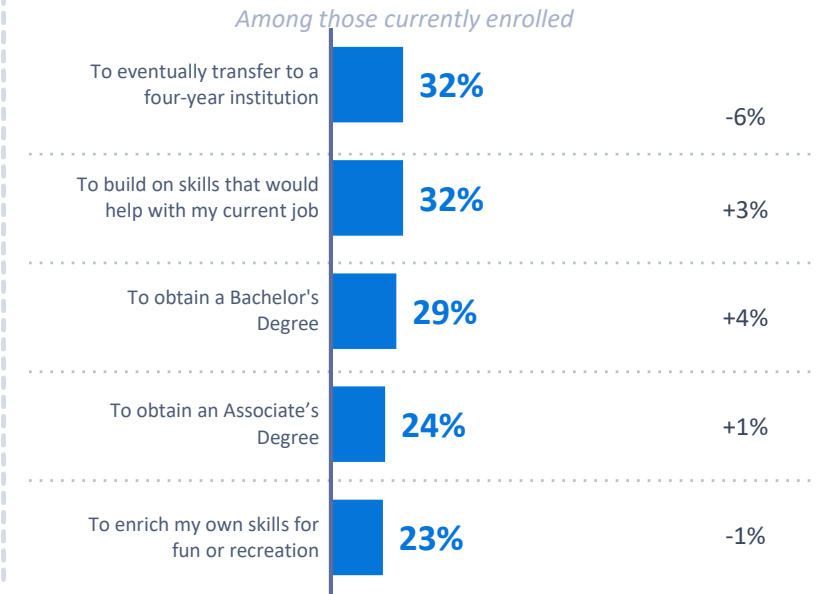

## Key Attitudes About Education

|  |                   |
|--|-------------------|
| Getting a good job mostly depends on having the right education          | <b>87%</b> (+32%) |
| Most of my education comes from ways other than school                   | <b>78%</b> (+23%) |
| I like to collaborate when learning                                      | <b>70%</b> (+18%) |
| Education is about learning real-world skills                            | <b>69%</b> (+17%) |
| My education will keep going even long after I finish school             | <b>53%</b> (-16%) |
| Financial aid is a must for me to consider a degree                      | <b>82%</b> (+15%) |
| Education is the best way to explore my passions                         | <b>58%</b> (+15%) |
| When it comes to education, I'm more concerned about getting good grades | <b>56%</b> (+15%) |
| I would only be happy with my education if I completed a degree          | <b>86%</b> (+14%) |
| My education experience depends on how good the teachers are             | <b>56%</b> (+14%) |

## Top Considerations

## Top Reasons For Taking Classes

## Decision sources

## Top Barriers

# While Support-Seeking Graspers see CCs as only good for people just graduating high school, they would also be happy to get all their education from one. However, they still have general concerns about CCs.

**Community College Perceptions**

|  |     |        |
|--|-----|--------|
| Community colleges are only good for people who have just graduated from high school | 58% | (+35%) |
| I would be happy to get all of my education from a community college                 | 80% | (+34%) |
| I have concerns about community college  | 59% | (+19%) |
| I would keep it to myself that I go to community college                             | 55% | (+16%) |
| I think I would fit right in with the kinds of students that go to community college | 77% | (+13%) |
| Community college professors are just as good as they are at bigger schools          | 80% | (+7%)  |
| I had/have a pretty good idea of what community college is all about                 | 85% | (+3%)  |
| Community college caters to a wide variety of interests                              | 74% | (+1%)  |

## Pragmatic Skillers

Pragmatic Skillers are more about the results than the journey: if they can skip the formal education pathway, they will. They believe most of their education comes from outside of school, and have a focus on *learning*, not just grades.

As they are skeptical of the benefits of the traditional 4-year pathway to education, Pragmatic Skillers **are a future target** for LA 19. They aren't concerned about the prestige of an institution but more of what it can offer, and already think that community college would be a great fit for their needs. Meet their needs by developing short, targeted, online programs for the skills that they seek.

They prioritize **quick experience** when choosing from educational options. They're independent, preferring to learn on their own, making them a good fit for online courses and certificates. They can also become advocates for LA 19 courses, as they think that they would fit right in at community college, and would be proud to tell others that they attend.

**Pragmatic Skillers are “street smart”. Most of their education comes from outside of formal schooling, and they think that good jobs come from knowing people. Their top considerations are around their degrees, but job placement is also important.**

### Key Attitudes About Education

|  |                   |
|--|-------------------|
| Most of my education comes from ways other than school                           | <b>76%</b> (+31%) |
| Getting a good job is mostly about knowing the right people                      | <b>75%</b> (+30%) |
| I like to learn on my own  | <b>71%</b> (+23%) |
| Financial aid is a must  | <b>82%</b> (+15%) |
| Most important things to learn are taught outside of school                      | <b>77%</b> (+13%) |
| Classmates don't matter as long as professor is an expert                        | <b>57%</b> (+8%)  |
| Education is the best way to make a better life                                  | <b>64%</b> (+7%)  |
| As long as the information is there, the way it's presented to me doesn't matter | <b>54%</b> (-7%)  |
| When it comes to education, I'm more concerned about learning                    | <b>66%</b> (+7%)  |
| Education is about learning theory and how to think critically                   | <b>55%</b> (+7%)  |

## Status Seekers

Status Seekers are razor focused on a degree and the associated pedigree. They have a clear vision of what they want to do with their degree and how to get there, and are willing to pursue it no matter the financial cost.

They strongly value education and think that most education comes from schools, not outside of them. They tend to prefer the accountability of a set schedule and timeline and are fond of traditional, in-person programs.

Status Seekers **are not a priority target** for LA 19. They are attracted to the prestige of an institution more than its specific offerings, but are skeptical of Community Colleges as a whole – they think that they would feel like an outsider, have concerns about it meeting their needs, and would keep it to themselves that they go there. Those who do attend do so to eventually transfer to a four-year.

A potential way to an in-roads with this group would be through skill-building: many of them are already in the workforce and may be interested in classes to upskill for their current jobs. Build and market programs separate from the Community College moniker to attract this group.

# Status Seekers value education and degrees. They see education coming mainly from schools.

## Key Attitudes About Education

|  |                   |
|--|-------------------|
| Only would be happy with a completed degree      | <b>91%</b> (+19%) |
| Education comes from school                      | <b>72%</b> (+17%) |
| Clear vision of what to do with a degree         | <b>79%</b> (+13%) |
| Financial aid is a must                          | <b>55%</b> (-12%) |
| Take education seriously                         | <b>86%</b> (+8%)  |
| Good job mostly about knowing the right people   | <b>51%</b> (+6%)  |
| More concerned about learning                    | <b>54%</b> (-5%)  |
| I like to learn on my own                        | <b>52%</b> (+4%)  |
| Choose area of study based on interests/passions | <b>75%</b> (+3%)  |
| Classmates just as important as professors       | <b>54%</b> (+3%)  |

## Doubtful Drifters

Doubtful Drifters do not have clear vision for where they want to take their lives, and are skeptical of whether higher education is even the way to get them there. They feel that they are too busy in their life with other things to make education a priority.

This group **is not a recommended priority target** for LA 19. They are skeptical of community colleges overall, see them as only good for certain things, and are more likely to see themselves as outsiders at community college.

At the same time, this group could potentially be targeted using short-term online programs. Because of their schedules, they are more likely to prefer taking courses on weekends or at night, and typically operate independently from school-provided services. Short-term programs would align with the fact they are not particularly degree-motivated. However, they are willing to take classes to build on skills for their current job, or earn a certification.

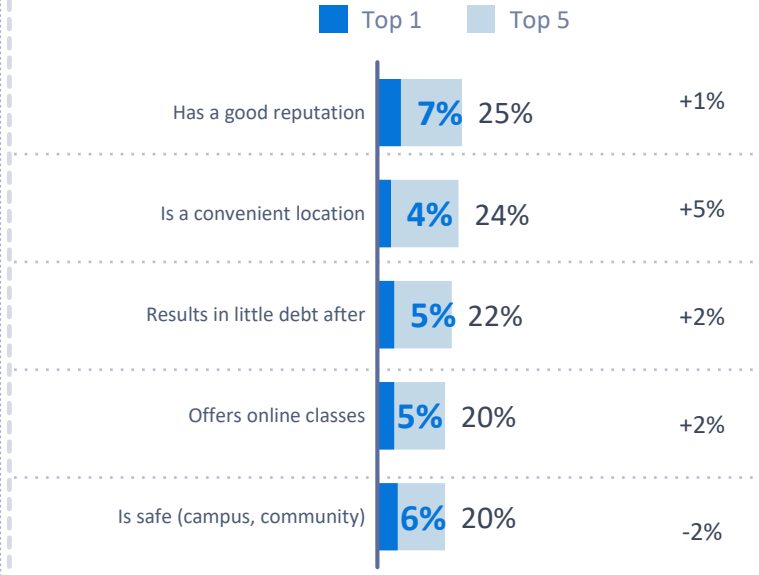

# Doubtful Drifters are not interested in getting a degree and aren't even sure which one they'd want. Those currently taking classes are doing so for up-skilling or to gain a certificate, not a degree.

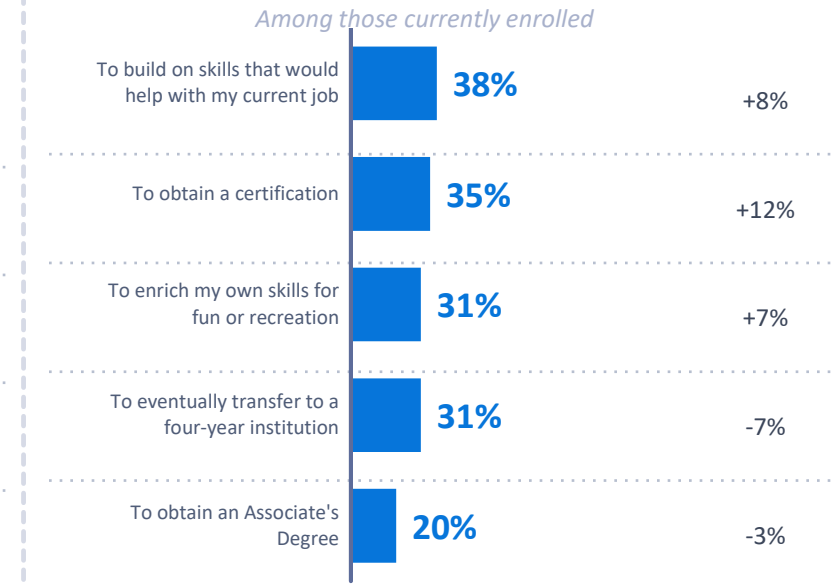

## Key Attitudes About Education

## Top Considerations

## Top Reasons For Taking Classes

## Decision sources

## Top Barriers

**Skepticism of CCs is prevalent among Doubtful Drifters. They are more likely to feel that they're only good for certain things and would see themselves as an outsider. However, around half have enrolled at a CC in the past.**

**Community College Perceptions**

|  |     |        |
|--|-----|--------|
| Community college caters to a wide variety of interests                              | 59% | (-14%) |
| I would keep it to myself that I go to community college                             | 51% | (+12%) |
| I think I would fit right in with the kinds of students that go to community college | 54% | (-10%) |
| Community college is a great fit for me and my needs                                 | 51% | (-9%)  |
| Community colleges can help people at various stages in their careers                | 68% | (-9%)  |
| I had/have a pretty good idea of what community college is all about                 | 73% | (-9%)  |
| Community college professors are just as good as they are at bigger schools          | 65% | (-8%)  |
| I would use community college as stepping stone to a better school                   | 52% | (-2%)  |

Awareness of community college was a requirement to enter the study. Percentages + or - are comparisons versus total sample.

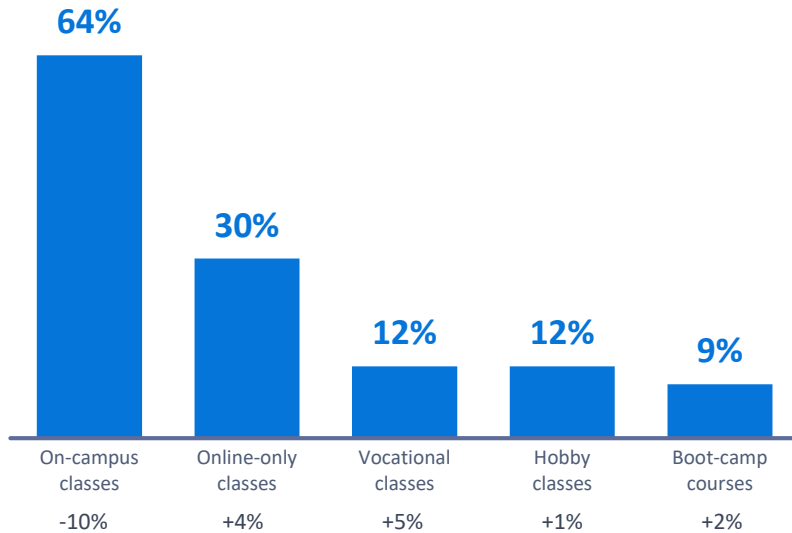

# Doubtful Drifters are also skeptical of education overall. They're more interested in quick experience, and while they'd work hard to get good grades, they see pre-requisites as a waste of time and prefer to look for information on their own.

# APPENDIX

## Respondent Qualifications

Age 18-40

Currently lives in LA DMA

Must be employed, a homemaker, or student (includes unemployed students)

Has at least a high school degree and does not have post-graduate degree

If not currently enrolled, open to pursuing post-secondary education for themselves in the next 12 months

Must be aware of community colleges

# Subgroup Definitions

## Current LA 19 Students

- Currently enrolled at one of the 19 local community colleges, taking at least 6 units
- Reason for taking classes at a community college is to transfer, obtain a degree, or obtain a certification

## Total LA 19 Students

- Currently enrolled at one of the 19 local community colleges

## Lapsed LA 19 Students

- Completed 1-2 semesters at one of the 19 local community colleges within the past 2 years but did not complete the program or obtain an Associate degree
- Not currently enrolled

## Current or Recent Student at For-Profit or Market-Driven Non-Profit Institution

- Currently enrolled or completed coursework at a for-profit or market-driven non-profit institution such as Devry University, National University, Southern New Hampshire University, etc. within the past 12 months
- Includes both those who completed paid or free coursework

## Automation-Risky

- Employed full time (at least 30 hours per week) or part time (less than 30 hours per week) in a recognized job at-risk for automation
- At least 50% of salary must come from the recognized automation-risky job
- Employed in the industry at-risk for automation for at least 1 year

## Career-Switchers

- Employed full time (at least 30 hours per week) in a job not at-risk for automation
- Does not work multiple jobs
- Has been with current job for at least 1 year
- Interested in switching careers into a different industry. “Switching careers” excludes those looking for a promotion within their current employment

## High School No Post-Secondary Education

- Completed high school
- Never enrolled in any post-secondary education

# Methodology

A total of 1,512 online and CAWI interviews were conducted in May 2019. Interviews averaging 15-20 minutes were sourced from nationally representative online panels as well as through on-campus recruiting. On-campus recruiting took place at Santa Monica College, Pasadena City College, East Los Angeles College, Mt. San Antonio College, Long Beach City College, and Cerritos College. Respondents were given the option of completing the survey in Spanish or English.

## Data Weighting

- LA 19 Enrolled
- High School Graduate No Post-Secondary Education
- ▨ Neither of These

## Segment Solutions

Data has been weighted to be representative of key demographics (age and gender, ethnicity) for key subgroups. Current LA 19 Students and High School Graduates Only had minimum requirements for base size, and all other groups were allowed to fall-out naturally. This combination of minimum base size requirements and natural fallout was used in determining segment solutions.

Those currently enrolled in LA 19 were weighted according to information sourced from Datamart. High School Graduates Only and those who did not fall into either of those groups were weighted according to information sourced from LA demographic information. LACC Students, High School Graduates Only, and others were weighted to be proportional based on 2010 Census for LA DMA.

## Post-Secondary Education Awareness (Overall)

# Community college is viewed as friendly, flexible, reliable, and inexpensive.

## Post-Secondary Education Word Associations (Overall)
