Dear Dr. Tsang,

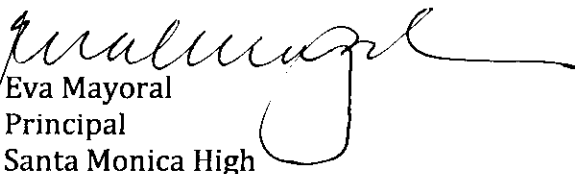

We are elated to learn about SMC's interest to develop one of the first California Community College Bachelor degrees. We wholeheartedly support your decision. We know you are well positioned *and* highly qualified to offer this degree, and are thrilled that our students will have affordable access to state of the art educational opportunities.

SMC has a cutting-edge curriculum, resources and faculty already in place and can get your program off the ground very quickly. With your top quality design program and faculty already in place, and your beautiful new facilities currently being built in the heart of "Silicon Beach", SMC will provide students with a top quality yet highly affordable bachelor's degree that will rival a private school education.

With thousands of jobs going unfilled in the design field, your **Interaction Design** BA degree is one that will prepare students to meet the demands of today's technology industry and provide a vital workforce need in our region and in the state.

I support your proposal with enthusiasm and look forward to meeting your graduates as soon as possible!

With regards,

Eva Mayoral
Principal
